meeting held by that body—"Resolved, that application be made to the Charlotte County Agricultural Society, to cancel the bond given to keeping in the County, &c., the bull Dan Godfrey, now on the Alms House Farm, and that permission be granted to dispose of the said bull to the best advantage."

Moved by James Russell, Esq., seconded by Mr. John Curry, that the application of the Alms House Commissioner, be received and complied with. Carried unanimously.

The committee of audit reported that they had examined the accounts of the Treasurer with accompanying vouchers, and found them correct.

It was moved, seconded, and unanimously carried that the report be received and adopted.

Moved by J. S. Magee, seconded by Geo. Mowatt, that the bill presented by A. W. Smith, Esq., for printing be paid. Carried.

On motion the President vacated the chair which was taken by James Russell, Esq., when A. W. Smith, Esq., moved, that the thanks of the society be tendered to R. Stevenson, Esq., for his services in the chair as President, which position he has so worthy filled, not only for the past year, but for the twenty years he has been President of the society. The motion was seconded by several and adopted by acclamation.

Mr. Russell expressed his gratification in conveying the vote of the society to Mr. Stevenson, who thanked the members for the compliment.

The election of officers was then proceeded with, resulting as follows: Robt. Stevenson, Esq., President; Alex. T. Paul and James Russell, Esqs., Vice-Presidents, John S Magee, Esq., Secretary Treasurer; Geo. S. Grimmer, Esq., and Messrs. John Curry, Benj. Pettigrove, Geo. Mowatt, John Emery, James McFarlane, Charles Kennedy, William Rollins, Robert Dinsmore, Committee of Management.

The annual dinner, which was held in the evening was a most enjoyable affair —Messrs. A. H. Gillmor, M. P., W. Elder, M. P. P., B. R. Stevenson, M. P. P., and others making excellent speeches, a digest of which we expect to furnish our readers with in due time. We regret that the state of weather and the travelling would not admit of the Editor of this paper accepting the kind invitation to be present.

DEATH OF WILLIAM WHITLOCK, ESQ. —As William Whitlock, Esq., was sitting at his office desk in St. Andrews writing, on Monday evening about 8 o'clock, he suddenly expired. The cause of his death is supposed to have been heart disease. Dr. Harry Gove was immediately summoned, but it was found that death had been almost instantaneous. Mr. Whitlock had reached the advanced age of 78, and was unmarried. He was generally esteemated, and in social circles was a universal favorite, for, to the experience of age he united the buoyancy of youth. He was a man of upright and honorable character, and his memory will be revered by all classes. Mr. Whitlock was a native of St. John, but resided 60 years of his life in St. Andrews, 50 of which were devoted to active business pursuits. He held the Commision of the Peace for 30 years and was Judge of the Court of Common Pleas until the abolition of that Court.

NEW STORE AND TIN SHOP.—H. A. Brooks notifies his friends and the public that he has removed to Chipman's new building, south side of Water Street, where he will keep on hand for sale at the lowest market prices, all kinds of stoves, stove pipe, tin ware &c., and hopes by a careful and prompt attention to business to merit a full share of public patronage. 6—4w.

A BIG GOLD BONANZA.—Judge McCassey, who has just arrived in Calais from the Black Hills, called at our office on Monday, and showed us some very rich gold and silver bearing quartz. So rich was the gold ore, that when broken it would hang together with pure native wire gold, and the silver ore was very rich in ruby silver. These mines are owned by the Seminole Gold and Silver Mining Company, Messrs. Brown & Bro., of Calais, Me., are the financial agents of this company and are selling shares to raise the means to purchase machinery to work the mine. The company feel confident their mine is equal, if not superior to the Consolidated Virginia, which is paying one million and eighty thousand

in about one week's time cleared the net sum of one hundred and sixteen dollars and fifty cent each, demonstrating that the times are not hard.

About twenty thousand quintels of hake have been taken in Grandmanan this season, cod, pollock, and haddock fishing have also been good; herrings were plentiful the first six months in the year, but there is an unusual scarcity at the present time, and the quality is very poor. The smoked herring's are a short catch and the people are not sorry, as they are at a low price in the markets of the United States.

Quite a number of new buildings are being erected in our parish. Your worthly townsmen John Frazer & Son are building a fine two story dwelling at Woodard's Cove. Our energetic doctor has also just finished a very commodious barn upon the top of which he has placed a showy ventilator. By the way, I believe doctors are the only persons in Grandmanan who put ventilators on their barns.—certainly a very convenient sign, as strangers visiting the Island and in want of medical aid can easily find a doctor by directing their steps to premises with ventilated barns.

Mr. Underwood of Boston is building a fine building, for canning lobsters, near the public wharf at Seal Cove, the second of the kind, owned by the same party, in Grandmanan. Fish are at such low prices in the markets of the United States, that several of their vessels are loading for Dominion ports where they hope to obtain better prices. One vessel cleared from Grand Harbo ur for Boston a few days ago with the whole of "North Head" on board.

We notice recently that the Eastport *Sentinel* has been using some "Sitting Bull" language towards Grandmananers. Sitting Bull said "the Yankees were all liars," and the *Sentinel* says Grandmananers are all misrepresentor's. We hope, in their savage rage, they are both mistaken, if the *Sentinel* is correct, it seems very strange that the United States agent at Eastport should invite several of those misrepresentors to go to Halifax as evidence on the side of the United States, three of whom, went, and were liberally rewarded, but the others could not see it. The Dominion had but one witness from the Island, the United States had three, and yet the *Sentinel* is not happy. Democratic Yankees, here, say that the misrepresentation comes from the *Sentinel*, that he has been misrepresenting facts more than seventeen years, and before President Hayes time expires the *Sentinel* will have the right of possession in this, so far to him, lucrative business. We had no idea he was so hard a "nutt," he must certainly be an Ivory nut. However, it seems that an Eastport Democrat unites with the *Sentinel* in crucifying a Dominionite, but we believe there is an almost parallel case mentioned in Luke's Gospel, 23 chap. and 12 verse, "sich is life." We are glad to find our esteemed friends Capt. Gaskill and Mr. Wm. Tatton, attending to business again. Both have been very low with typhoid fever. The same
