

# WILL INDEX

I mentioned in my last Newsletter that one of the indexes I was hoping to be able to do was a Will Index. I am happy to report that the project is well underway. I have written a small program to produce the index and am in the process of inputting all the information. I have about 250 wills included so far and am in the process of searching the files for the rest. The index is intended to include every Whitlock will or will a Whitlock is mentioned in. I will indicate whether it is a will or an administration and if we have a copy or extract in the files. This will enable us to not only use the index as a research tool but also fill in some of the blanks along the way.

I hope to have the index finished before Christmas and will report on it in my next Newsletter.
