

VIRGINIA RESEARCH

The following material was donated by Pearl Olsen (1903-1985) in 1981 and represents over thirty years of research into the Whitlocks of **England** and **Virginia**. While the material has been catalogued for some years (REF78) I had never produced a detailed listing to enable others to request copies. I have not listed the length of each section but roughly each item runs until the next page number listed. e.g. the first item is pages 1 to 33 or 33 pages in length. This research resulted in the connection of the Virginia Whitlocks (WHITLOCK.25) family with the Whitlocks of Wokingham, Berkshire (WHITLOCK.02) family. The exact descent still eludes us but we still hope to be able to make the connection with some certainty.
