

AUDREY B. CURTIS

It is with regret I must advise that on Tuesday September 10, 1996 Audrey Curtis died in Northampton. Audrey's son Iain advised that his mother had been in ill health all summer and at the end of August was diagnosed with liver cancer.

Audrey had been a subscriber since 1993 and while it is was not a long time Audrey's contributions were numerous. The additions lists contain many items sent in by Audrey, many of which were unrelated to the personal research she was doing. The collection of Northamptonshire wills copied by Audrey will continue to assist those working in that county and the many other extracts help fill in many blanks in this county.

We will all miss her.
