William Hatchat (Seal)
John White

From this information we were able to determine which John this is. The Pitton burial records show John was 84 years old when he died in 1816 gives birth year about 1732. The is a baptism December 13, 1733 of John son of Henry and Susannah Whitlock. The 1851 Census of Pitton shows:

Stephen Whitlock Head U 70 Woodman born Pitton
Sarah " sister U 73 Housekeeper "

These are obviously the children mentioned in their father's will. The Pitton parish registers show:

bpt. 20 Apr. 1777, Sara, dau John & Phoebe Whitlock at Pitton, born 17 Apr. 1777 &

bpt 1 Oct 1780, Stephen, son John & Phoebe Whitlock at Pitton, born 26 Sept 1780

Therefore this John Whitlock is son of Henry Whitlock & Susana Read and the one who married Phebe Redman Nov.22,1757 at Pitton.

Our thanks to Quintin White for this will as it answers several long outstanding questions, not the least of which was which John Whitlock married Phebe Redman. This also connects the WHITLOCK79 chart with its large Australian Haynes (Haines) family to the WHITLOCK52 chart and I have made that transfer.
