Vol.25 No.1
Mar 2006
Page 1

The optimism of the last issue that we had found a major connection for several of the families in Cholesbury, Buckinghamshire has not yet been followed up with evidence. Iola Ebendorf sent a researcher to the parish but they were unable to confirm anything. I still think research into the parish of Cholesbury records is worth pursuing. Hopefully we will be able to uncover where the parish records are or if there are other records such as Manorial Rolls that might be of assistance in this search. Sorry I can not give more positive information, yet.

On a more positive note, I have managed to complete the US 1880 census. The Whitlock and Whitelock extracts have now all been copied into our census files by state. I am also working on entering the 1900 US census to each of these files as well. Unfortunately this is a typing job and is going to take some time. I have also been working on the Deaths register and this file continues to grow as well. I have the complete US Social Security death records included up to 1989. These give both birth and death dates. This file is very incomplete and has not yet been downloaded to the website.

Several persons have used the census files to good effect lately. We have quite a few families with origins in South Carolina in the 1790's with no idea who the parents are. Anna Popejoy has zeroed in on the Nathaniel Whitlock who shows on the 1800 census for Greenville, South Carolina. In 1800 he is shown with what are likely five sons and three daughters. Nathaniel is more than 45 in 1800 so is born before 1755. Anna speculates he is the Nathaniel Whitlock who shows in the 1771-1774 records for Surry Co., North Carolina with a possible wife Elizabeth and possible children Charles, William, Mary, James, Thomas and John. If Anna is correct this could give us the origins of the WHITLOCK84 chart.

Ann Sims is working on the Thomas Whitlock who shows on the 1810 census of Spartenburg Co., South Carolina. In this case Thomas is also more than 45 so is born before 1765. If this is the same Thomas who shows on the 1800 Union Co., census aged between 26 and 44 it would mean he was between 35 and 44 in 1800 or born between 1756 and 1765. In 1810 Thomas is shown with what would likely be three sons and three daughters.

Also on the 1810 census for Spartenburg Co., South Carolina is Samuel Giddings. Ann Sims is currently writing a book on the descendants of John Whitlock who married Sarah Giddings. She shows Samuel Giddings wife was Sarah Ann Mason. John Whitlock was born about 1792 in South Carolina, he names his second son Thomas, his wife is likely the daughter of Samuel Giddings and when the family later moves to Texas they live in the same areas as the Mason family. All clues that Thomas Whitlock may have been the father of John Whitlock who married Sarah Giddings and heads the WHITLOCK86 chart.

Both these speculations are based on the census records that indicate that these persons married and had families that have not yet been documented. I am very pleased to see this kind of research concentrating on the South Carolina families as I think they hold the clues to connecting together several of the families from this area.

Keeping with the census theme, I was very pleased to receive extracts from Joan Whitelock of Hampshire from the 1851 census for Wales (R2498 & R2499). A surprise in these records was to find William Whitlock of Langtree, Devon who married Harriet Fowler in 1840 and later emigrated to Cleveland, Ohio. We knew William had emigrated but were not sure when as he did not show in either the British 1851 census or the US 1850. We now know where he was in 1851. Living nearby in Michaelstone, Glamorganshire, Wales was William's cousin Christopher Whitlock who married Mary Heysett at Shebear in 1834. This clarified which Christopher it was who married Mary Heysett and also added many more children to this family that were unknown until Joan sent in these census records.

Lastly these records confirmed the old family stories about two brothers who went off to Wales from Langtree, Devon. While they did not turn out to actually be brothers, they were cousins and would have grown up together in the Langtree area. I don't think it was a co-incidence that they were both in the same town in Wales in 1851.

Other highlights from the material listed in this issue include an item from my niece Jeanine Robertson who found a Sampler pattern done by a Polly Whitlock who was age 38 in 1850. We have been unable to pin down who Polly Whitlock was but the assumption is that the Sampler originated in the United States and likely in the eastern states.

The information from Carol Podolski regarding James Whitlock's Tavern in Dayton, New Jersey (X5724) is a bit of a mystery. The building has been beautifully restored and is a working restaurant but which James might have been in the area in the 1750's were are not sure. It will be interesting to see if we can uncover any actually records and determine when James Whitlock became associated with the place. While it is fairly clear the place was built in the 1700's when James Whitlock's name became associated with the Tavern is not clear. James Whitlock is a Virginia Whitlock name more that a New Jersey one at this time. There is a James Whitlock who is an innkeeper but the time is much later than 1750.

I was very please to hear from Gord Bulger of Nanaimo, BC who is a descendant Peter & Anna (Whitlock) Vanderburgh through their granddaughter Amy Harriet Kyle Mathison who married Emeric Bulger in the 1850's in Quebec. Amy Harriet Kyle Mathison's sister Ann Eliza Amelia Mathison married their grandmother's brother, William Coley Whitlock (1787-1875) and in 1913 provided the land that is still the Whitlock Golf and Country Club in Hudson, Quebec. I would assume that Amy's second name Harriet is after "Capt John Whitlock's beautiful American cousin" Harriet Vanderburgh who married Major John Augustus Mathison.

The information sent in by Penny Mills regarding the Whitlocks of Devon who served in India in the 1800's (X5774) provided new details about the WHITLOCK22 family. One of the articles in this issue is based on this information.

William Smale of Ontario sent in detailed information on his descent from Jonas & Sally (Whitlock) Smale of Devon. This added to and updated the information sent in by John G. Smale of Chico, California in the 1960's.

Rev. Phil Whitlock's work on the Whitlock families of Maryland (X5805) has added useful information that likely connects to the WHITLOCK57 chart.

I was also pleased to hear from Roger Baker who has recently purchased a heritage home in Ephraim, Utah that once belonged to Charles Whitlock (1833-1920) (X5808). I will be interested to follow his work to restore this house. Roger is looking for any old photographs of the house descendants might have.

Sandra Natowich's collection of certificates (CERT954-960) relating the Whitlocks of Brevard Co., Florida added to the information on the part of the family likely connected to the WHITLOCK16 chart. The family were pioneers in growing oranges in Florida. The information on Adoniram Judson Whitlock (1828-1902) lead to related research into Adoniram Judson the American missionary in Burma.

Joan Whitlock's collection of Whitlocks of Wales certificates (CERT970-981) filled in many blanks for this part of the Langtree, Devon family.

As usual a large, useful and varied collection of information about many different parts of the Whitlock family. My thanks to everyone for their contributions.

My thanks also to everyone who has renewed their subscriptions for the coming year and for the donations many of you included with your cheques. All much appreciated. As has been my practice, I have included a renewal form as a reminder in the March issue to those who have not yet renewed and I hope you will be able to add another year to your subscription. It is hard to believe 2006 will be Volume 25 of the Whitlock Family Newsletter. How time flies when you are having fun!! Good luck in your own research for the coming year

THE INDIAN MUTINY, 1857

GYA INDIA September 1857 - an account of a skirmish with rebels written by my gt gt grandfather Lieutenant George Frederick Tod Whitlock Commanding H.M.S. 84 Regiment.

“On the 6th inst I received orders from Captain Raffray Com.der the station, to have my men in readiness to move out by 2.30 oclock P.M. but owing to some detention we did not start until 4 oclock. We marched to BOOD GYA a distance of about 6 miles, on arrival at that place late in the evening, it was decided that we should halt until further information of the Movements of the enemy should be obtained. On Tuesday the 8th inst. about ¼ past 3 oclock A.M. hearing that the Mutineers were at a place called Luckipore some 10 miles to the east of BOOD GYA. We proceeded to meet them, our road was very indifferent for the movements of Troops, we having two rivers the Lalajune and Fulgoo to cross. The countryside being much cut up with water courses and rice fields. We crossed the Lalajune and Fulgoo at almost right angles and then followed the East Bank of the Fulgoo.

About 9 oclock a.m. our advanced guard consisting of Captain Raffray's Sowars discovered the enemy crossing the Fulgoo some distance in our front, where the river takes a sharp turn to the South. We instantly crossed the river to intercept them and found their main body drawn up in line about 800 yards to our front near the village of ETAWAH. We on landing had formed Column of Subdivisions a formation which appeared most applicable to our small number consisting of 37 Europeans and 163 Seiks. The ground in the immediate vicinity of the river was low and marshy and we kept to it as much as possible, hoping that the Cavalry would attack us on our own ground. That occupied by the enemy was dry and uncultivated, and most favorable for cavalry movements, and they contented themselves with showing a front to us in whichever direction we moved. Their intention was evidently not to attack. On perceiving this we moved towards them, and arrived at their camping ground. The enemy then shewing a strong line to our front with a troop on each of our flanks, Here we halted again, and a subdivision under Lieut Boyd Late 7 Bengal N.I. was sent to bring up our Elephants.

We then sent out a section to dislodge a small party who were greatly annoying us by the precision of their fire from behind some trees on our right here two Seiks were wounded. The enemy then collected their Videttes, Retired to form column of route, thus advanced guard, baggage Main body and rear guard and proceeded to Bood Gya. Our elephants having come up we placed the Europeans on them, and moved off in the direction parallel with the enemy with the hope of getting into Gya before them. They discovered our intention, and a large body of them came down upon us at the charge, and breaking into three parties took up three positions viz a small village on our proper front, another on our right an a tape of trees on our proper left. The river being in our rear and opened fire upon us. After having successfully checked us for about 2½

hours, they then drew off leaving a picquet to watch our movements.

We then crossed the river. Under this fire 4 of my detachment were wounded, 3 severely. We got into GYA between 3 and 4 o'clock a.m. in the 9th inst. and found that the enemy had passed through 4 hours previously. The number of the enemy actually opposed to us could not have been less than 500 men, and by the accuracy of Their movements they must have all been drilled men.

The distance Marched by my men were thus - 8 miles on the 6th inst. to Bood Gya, halted 7th marched ½ past 3 o'clock a.m. on the 8th inst to ETAWAH 10 miles where we met the enemy and then marched back 18 miles to Gya where we arrived between 3 and 4 o'clock a.m. of the 9th inst, thus during 24 hours my men went over 24 miles of ground and without food or shelter from the sun.

In conclusion I would beg to bring the notice of the General Com the division, that my available force of 33 men is very inadequate for the protection of GYA, and in case of a disturbance in this place my small detachment would be perfectly useless.

I have the honor to be SIR
Your obedient servant"

The above item was sent in by Penny Mills of Chichester, whose family shows on the WHITLOCK22 chart. Her gggrandfather, George Frederick Tod Whitlock was born in Moulmein, Burmah (India) December 5, 1827. He was the son of Sir George Cornish Whitlock and Harriet Toller who were married in Bangalore, India February 19, 1825. The family was from Ottery St. Mary, Devon and Sir George Cornish Whitlock served in India many times from 1817-1868. He was made a Lieutenant General in 1864.

George Frederick Tod Whitlock was age 30 when he wrote the above report. He later he married Laura Vellacott November 22, 1859 in Fremington, Devon. George F.T. Whitlock participated in the siege and capture of Lucknow and was a member of the Sangor Field Force during the occupation of Alumbagh. He retired from the forces in 1866 and settled in the Barnstaple area of Devon. He died in Chester July 13, 1900 and was buried at Barnstaple.

Penny notes that there are detailed reports about the Battle of Banda 19th April 1858 in the *Madras Spectator* 11th May 1858 and *Madras Times* 28th March 1859. The latter describes the part the Sangor field force played in the conquest of Oude. Penny's ggggrandfather, Sir George Cornish Whitlock was the commander of this force.

Our thanks to Penny Mills for this interesting addition to our files.

WILL OF WILLIAM HOLMAN, 1820

Rowan County Register. P 3158 & 3159

Rowan Co NC Wills

H:27 William Holman. 3 May 1819. Prb. Feb 1820. Weak of body. Wife Sarah to have one sorrel mare & colt, two cows & calves her choice, one two-year-old heifer, eight head of sheep, fifteen head of hogs her choice, the whole flock of geese, one feather bed & furniture of her choice, one woman's saddle and bridle, a negro girl Cate and a negro boy George, the plantation where I live during her widowhood, a negro boy Charles, and the kitchen furniture, son Thomas Holeman to have a horse called Jack, bridle & saddle, a feather bed & its furniture. Son Samuel to have a gray mare called Midus, bridle & saddle, a feather bed & its furniture, and eleven head of hogs. Patience Reavis, wife of David Reavis, \$25.00. Dau Sarah Holeman and dau Temperance Holman- one feather bed & its furniture each. Sons Thomas & Samuel Holeman my home plantation at my wife's decease or the expiration of her widowhood, with Thomas to have the upper tract and half the new entry and Samuel to have the lower tract & building and the other half of the new entry. My three negroes lent to my wife during her life or widowhood are then to be sold and daus Sarah & Temperance are each to have \$50.00. All the rest of my property to be sold and the money divided equally: sons William Holman, James Holman, Isaac Holeman, David Holeman, also my daus. Rebekah Lovelace, Patience Reavis, Mary Sigler, Sarah Holeman, & Temperance Holeman, also my two younger sons Thomas Holeman and Samuel Holeman. Exrs: John Hendrick, John Joyner. Wit: John Sommers, John (X) Harris.

(Note: William Holeman is the son of Isaac whose 1807 Rowan Co Will, prb 1808, is recorded in Book G:93. Isaac Holeman was in Rowan at the time the county was formed; he was originally from Anne Arundel County, MD, see Newman, Anne Arundel County Gentry, p. 437. An Isaac Holeman was selling land in Rowan by Jan 15 1754, Deed Book 2:96, no purchase deed for this land survives in Rowan County nor in the Granville grants. William Holeman's first wife was Elizabeth Johnson; his surviving wife nee Sarah Whitlock. The 1815 Rowan tax list shows William Holeman Sr with one black poll and 268 A; James Holeman Sr, with four black polls and 250 A; Jacob Holeman with 1 white poll; 2 blacks polls, 513 A;

David Holman 500 A; David Reavis with 336 A, Rebekah Holeman, b.27 Feb. 1775 Rowan, d. 1834 KY, m. Surry Co., NC, 6 Oct. 1795 Andrew Lovelace; the Rowan Co. marriage bond of David Reavis & Patience Holeman is dated 20 Apr. 1809; Mary Holeman is said to have married Jacob Sigler; the Rowan marriage bond of Temperance Holeman & Thomas Whitlock is dated 22 May 1824; the Rowan marriage bond of Bennit Windsor & Sarah Holeman is dated 27 Apr 1823.

The Whitlocks of Rowan Co. were the subject of an article in December 1997 issue of the WFN. The James Whitlock mentioned in that article also appears in a Deed dated Aug.9,1787 State Grant #1562 @ 50 sh[illings?] the 100 A[cre] to Silvas Whitlock, 300 A adj James Whitlock, William Holmar (Holman?), William Cook and John Gwaltney. I think this William Holmar is the William Holman who's will is shown above. William's wife is shown in other records to have been Sarah Whitlock. It is speculated that Sarah was the daughter of James Whitlock of Rowan Co. Thomas Whitlock who married Temperance Holeman in 1824 is shown on the WHITLOCK87 chart as a possible child of James Whitlock and Nancy Bowen.

I will repeat my comment from the 1997 article. "If there is a clue here, I am missing it." Somehow these Rowan Co., North Carolina families are connected together but how continues to elude us. Hopefully more research into some of the collateral families such as the Holemans and the Bowens will make this clear.

Our thanks to Anna Popejoy for this item.

ABRAHAM LINCOLN TELEGRAM 1865

The following extract comes from the Project Gutenberg EBook of The Writings of Abraham Lincoln, Volume 7, 1863-1865, by Abraham Lincoln

TELEGRAM TO GENERAL G. H. GORDON. EXECUTIVE MANSION, WASHINGTON, April 11, 1865. BRIG. GEN. G. H. GORDON, Norfolk, Va.: Send to me at once a full statement as to the cause or causes for which, and by authority of what tribunal George W. Lane, Charles Whitlock, Ezra Baler, J. M. Renshaw, and others are restrained of their liberty. Do this promptly and fully. A. LINCOLN

We have not determined which Charles Whitlock this telegram refers to but our thanks to Chuck Rockett for this item.

WHITLOCKS OF BROCKLEY ST, S.E. LONDON

We have received a query regarding a Reg Whitlock who lived with his family over a florist shop in Brockley Street, South East London, England. Reg was an only child, born about 1920 and attended the Brockley Primary School. If any knows this family or has further information I would be interested to know.

WILL OF JOHN BELL, 1849

Oglethorpe County, Georgia - Will Book C Will of JOHN BELL - Dated January 7, 1840 - Recorded January 13, 1849 To wife Mary, house, \$75, her stock by contract To sons John A. Bell, James Bell, Jesse Bell, Sylvanus Bell To daughters Rebecca Sewell, Elizabeth Sewell, Nancy Cramer, Patsy Whitlock, deceased Adm - John A. Bell, sons-in-law Joseph Cramer, William (J) Sewell Codicil - November 24, 1844 To wife, Mary, 100 acres of land and provisions To son John, 100 acres adjoining the 100 acres given in original will To son-in-law Joseph Cramer, \$50 for kind attention \$75 as half left to children of daughter Patsy Whitlock to be paid to son James Bell as agent for Polly Rachels, to be managed by him; the other Half \$75 to be paid to grand daughter Eliza Whitlock, and she to come in as equal share with my children, including Negroes purchased by me of the estate of Jesse Bell, deceased. Codicil - November 8, 1848 300 acres back to John A. Bell, he to pay back to the estate \$350

Our thanks to Anna Popejoy who sent in the above will. Patsey or Betsey Bell was married February 12, 1812 in Oglethorpe Co., Georgia to Beasley Whitlock (1790?-1869). She appears to have died prior to 1822 when Beasley married Sarah E. Simmons.

The will mentions "children of daughter Patsy Whitlock" but the only one mentioned is Eliza. This family is part of the WHITLOCK33 chart.

SOURCE:X5765/6

Hudson, Quebec home (1920's) of Major John Augustus Mathison (1781-1868). Major Mathison's wife was Harriett daughter of Peter & Anna (Whitlock) Vanderburgh. His daughter Ann Eliza Amelia Mathison married Anna Whitlock's brother, William Coley Whitlock (1787-1875). This family is part of the WHITLOCK09 chart.
