

SOME WEST OXFORDSHIRE WHITLOCKS

XS471

**Notes**  
 The surnames are all Whitlock except where shown otherwise or the maiden names are not known. The dates after names are dates of birth except that dates after 'd' are dates of death. Dates of birth are approximate as they are based on records of baptisms and ages given in census returns. The capital letters after dates indicate the sources of information. B, C, D, S, SH and W are the Sampton, Cogges, Ducklington, Standlake, Stanton Harcourt and Witney parish registers from Oxfordshire. K is the Kemsing, Kent, register. Information from the 1841 census is shown by ++, from 1851 by +. 'A' refers to the record of the administration of an estate, and MB to a marriage bond. It is difficult to be certain of the connections between the generations particularly in the top half of the table, but the references to Gill Mill and the recurrence of the name Elisha make it look as though Thomas and John in lines 13 and 19 were the same as those in line 4, and the identification of William who married Mary at line 35 depends on the marriage record which says he is of

Mary Ann = John Cosier born in Middlesex 1789
