

Well I have managed to get Phil on the phone to-day and had a nice talk with him. We are going to try and see each other over the weekend. It is good to know we have a relative here, as Earl and I always seem to be all alone with Alice & Mattie moving so far away. They talked to us on the phone at Xmas which was good. Well Susan good luck with your renovation in the house. Our old house could stand it too. You are both ambitious people which is good. Well I better stop or you will be tired of all this awful writing. All the best in the New Year.

Dear Peter, Susan & Meghan. I sure did enjoy your newsletter. I am glad every thing has turned out so good for you, and that your accounting course finished up so good. Sounds good going into that glass business. I wish you all the best of luck in it. You sure are a busy person. You have done a lot of research on the Whitlocks too. I see that I have neglected to inform you of another great grandchild. Walter's son Douglas & wife Terry had a baby girl born March 17-1981 named Patricia Nicole Hill. I have a time keeping up to so many. I hope your computer is a success in your work too. You may have to take a course on programming it. My daughter Alice's son took the course, but I don't know if he ever got the chance to use it or not. I hope you had a good Xmas. We went to our neighbors for the day.
