Dear Mrs. Pratt:

I have your letter of April 30, 1979. I had thought I had replied to your previous letter, but if not, it must have become misplaced.

I don't know of any Whitlocks in this area, who originated, or came from Augusta County, however, if you will send me the information you had again, I will see what I can learn.

Attached is a photocopy of the Local Telephone Directory listing the Whitlocks in this area.

The ones in my family are Mrs. Edward J. Whitlock, Robert A. Whitlock and myself, so I wouldn't be able to answer any questions they may know, however, you might want to write to the others. Mrs. H. C. Whitlock is a very elderly lady, and I am not certain about her background. We did go through a land suit involving her family that would have carried her family back through her husband's father, who was John Henry Whitlock, her husband being Henry C. Whitlock, and she being Ivy Spicer Whitlock.

I do not know of any relationship between this family of Whitlocks and my family, however, they have always lived in this area, so far as I know, and there could be some connection back before this time.

I do not know anything about my family's history beyond my father's father, who came from Orange County.

Please let me know if you know of anything further with which I can help. I would be interested in receiving any information you develop as to the Whitlocks of this area.

Best personal regards.

Sincerely yours,  
  
W. W. Whitlock
