*Memo  
Nov. 23. 1991  
B.*

Nov 14 1991

Dear Peter,

Many thanks for your letter of Nov 3rd. How I agree with your comments with regard to our records, say, wouldn't it be funny if the Illinois family you mention JUST happened to be connected to my son-in-laws family, I rather suspect they might be a little like that...

Here is the other scrap of info I mentioned that I had, but was unable to put my hand on:-

Census 1851 HO 107/1660, folio 473 pge 18  
Royal Naval Hospital, Haslar, PORTSMOUTH.  
Isaac WHITELOCK a patient, unm age 27 Marine Private, b in Castle Carey, Somerset.  
*1-1853*

I wonder if you have access to the Social Security Death Index for the USA, I cannot remember the applicable years, but they are something like 1963-1989. They give the date & place of death, date of birth & place where SS no's were issued. If not, I would be happy to take them for you, & if there is any other thing you would like me to look up at the LDS Family History Centre, just let me know, I go there most weeks.

I find I am having to move back into Devon for a couple of Census returns, then I go into the Bristol/Thornbury area, so we may be lucky & find a few more WHITLOCKS, I hope so.

Please do not feel bad that you are not finding any more METHERELL's, I'm used to that by now!!! & I consider myself lucky that I have nearly 7000 onto my computer.

We are off to San Fransisco for a few days on Monday, it will be our 35th wedding anniversary the following weekend, & we thought it would be a nice way to celebrate.

Please do not feel obliged to reply every time I send you a snippet, unless of course there is something I can do for you.

Thank you for the crossed out suggestion, I have not found it a very useful tool I'm afraid, however this year I am subscribing again to the GRD both as a "15 person" search & as a One Name Researcher. The GOONS messed up a little when I had to transfer my membership over to the USA from Spain, [I think it was at the time Marjorie Moor was sick,] perhaps the next issue of members will get it corrected!

Let me know about the SSDI.

Sincerely

*Beryl.*

*P.s. If you ever come across a SCEN(E)Y I would be eternally in your debt!  
B*
