Dear Peter,

Gerry & I have just returned from 10 gruelling, exhausting days in SLC. If I thought my desk was a muddle before, you should see it now!

Notes, pages of data, odd bits & pieces everywhere, I need at least a month of quiet without interruptions from daughters, grandchildren, friends & telephone I think....

However I did manage to find some things for you, there is another one that I remember, but I cannot seem to find it at the moment, it was the birth of a child with the mother's maiden name being WHITLOCK, it does not appear to be along with the other records I had made. You will also notice in some cases I did not take all the details down, only where the info was to be found, time was of the essence I'm afraid, & sometimes I thought perhaps you already had the info anyway, please take it for what it is, & forgive me if I have not got it all completely right.

Census 1871 RG10/2140 Stoke Damerall
NOT on board the "INDUS" Sunday 2 April 1871

Cabin- James WHITLOCK age 22, native country- Cape. a carpenter.

NJA 808
That's it for now, until I find that other one when I go through my own extraction records more thoroughly, hope there is something of interest in this,
Sincerely,
