Dear Mr Whitlock

I am in the process of researching my husband's family who came from the Leckhampstead, Bucks area in England.

I (and my husband's family) have always been under the impression that John PICKETTS married a Harriet WHITEHEAD probably about the 1870s. However, another member of the family who is doing some research has recently come across a John PICKETTS who married a Marie WHITLOCK in Greens Norton Church Feb 23rd 1862. I don't think this John PICKETTS is my husband's g/grandfather but I have since spoken to an elderly spinster Aunt in England who says she can remember the name WHITLOCK quite well.

Would you please advise if you keep a data base of WHITLOCK names and those associated with them. If so, I would very much appreciate knowing if you have details of the above recorded.

I enclose 2 I.R.Cs and a self addressed envelope.

Yours sincerely

Anne Picketts
