Dear Peter,

My you do have a way of catching me when I am down. Apparently that bug I had in December decided to multiply in a severe way and I was hospitalized in February for 3 weeks then on Home Health care. Of course no definitive diagnosis to my problem just wrote it off as an INFECTION which manifested itself on the right side of my neck. I am still submitting to tests periodically and I believe that is because the doctors don't have the guts to agree with my diagnosis of Hodgkins or at least Lymphoma. I guess they just don't have the courage to give the Director of Nurses such a diagnosis. Time will tell who is right. I have returned to work a couple of hours a day and hope to be back to full time soon. Can't let that nursing staff think they can get away with anything while I'm not at full steam.

Anyway your letter of February 9th was a delight to receive. You aure did review it with a fine tooth comb. Here are the answers to your comments.

LFH

1. Svensson or Svenson has been found to be spelt both ways in the parish church records in Salt Lake.
2. Anna Louivsa (Johansdotter) Wittlock correct death date is May 18, 1932 ↓
3. Family Goupsheet listing of Franz Oscar Wittlocks 3rd child EMMA LOUIVSA WILHELMINA WITTLOCK correct birthplace should be listed as GRODINGE, STOCKHOLM, SWEDEN These computers sure aren't perfect or I should say the data enterers.
4. The information for my grandchildren has been included in this packet by providing the Family Group Sheets each of our children.
5. New info since last info was sent Harry O Whitlock passed away on January, 1994 Copy of notices are also included. However newspaper write up has an error as Howard Olmstead is a cousin and not a brother to Harry Notice Harry used the Whitlock spelling due to the Olmstead family not wanting to have any connection to my Father-in-law Charles (Karl) Oscar Emil Wittlock.
6. Searched my files for the info I received from Lavern Wittlock in NY and found I never entered into the

page two

computer as the connection was not true. I did manage to find a scrap of paper with some info so I have tried to fill out a Family work sheet for you which is also included in this packet.

- 7. Salt Lake Record copies are also included in this packet where we have validated our WITTLOCK ancestors Maybe they will help with your family association.

Sure would be interested in seeing your PAF print out. I have not become familiar with the PAF or how to use or add to it.

Please feel free to keep in touch. Will gladly clarify any questions or computer differences.

Sincerely

Mary L Wittlock
