Dear Peter,  
Many thanks for your letter and the enclosed stamps. They more than covered the cost of the photocopying and I will put them towards anything else I might do in the future.

As you can see I still have the fiche with the MATTINGLEY information on it. Hope these give you something more to work on. If you need anything more, please let me know, the microfiche are in my LDS on indefinite loan.

We were very privileged to get to see the Parish Registers for St Matthews Church, Yiewsley, Middlesex. [My third cousins husband is Church Treasurer and so was able to let us look at them.] I seem to recall having come across this family before somewhere.....

Although we covered the baptisms up until August 1913 we did not come across her baptism, although it is always possible we missed it as we were getting very short of time by then.

Thank you for your kind offer of someone to pick up certificates etc from London. As I ordered 20 whilst I was there I think I had better hold off for a while, but I will bear it in mind for the future.

I have been doing some research for a Dennis LONGMAN over here and actually got to meet him whilst in the UK. The subject of BURNEAU's index came up in conversation, and I proffessed myself totally baffled by it, it would seem he is not and has offered to try to sort out a couple of problems that I have had with wills where litigation has taken place. One never knows who or what is going to turn up does one?

I had a couple of lucky breaks whilst there, one I managed to find a lovely monument in a church to a ?x gt aunt, [one of those concerned with the above mentioned wills!] and a lady in a village who was writing a book about the Manors and other great houses in the area, she confirmed where my ancestors had lived and that they had been Roman Catholics and gave me a copy of two relevant pages from her soon to be published book. At least I have a more definite clue about where to look for them now.
