Dear Peter,

I hope you had a nice Holiday season. What I found on the 1860 census info for Ezra was the following:

Mahaska co, Monroe Twp p 351

Ezra Whitlock 23 y/o laborer born in Illinois was living with Daniel and Margeret Roomer

So he could not have been a father to Asa but could have been a brother. I have ordered some probate records for Mahaska county to see if I can find any connection with Ezra and Asa. I looked through the 1850 Illinois census information for Ezra since he would have been 13 and most likely would be in his parent's household and did not see any info for him there or for the Iowa or Kentucky 1850 census. It would be my luck to tie Asa and Ezra as brothers but be unable to find parents for either.

I also found more information on Asa's death. The WPA has better information on his headstone than what I had previously found.

Asa M Whitlock 1833-1875 Bedwell cernetry, Monroe Iowa
Co C 15th Inf of Iowa

WAZ 9

I do not find any tombstone records for Ezra in Mahaska county so he may have moved on by then. When I get to Salt Lake in Feb I am going to check on any pension records for Asa's Civil War service.

I checked through the Mahaska county Iowa wills and did not find any for Asa but the probate records might show that he died intestate.

Do you have information on Whitlocks in the deeds and wills of colonial Essex co Virginia? I found in a general index of Deeds and Wills Book A 1654-1691 some indexes tp documents relating to Anthony, Thomas, John, Mary, James Whitlock. If you do not have such information I can order the actual records and transcribe them.

You asked in your last letter if I would be interested in help comparing IGI updates etc and I would be happy to help. If you would send me a list of instructions of what you need, I will do it. I also enclosed my 1995 subscription to the newsletter.

Take care and I will let you know if I make any progress on Asa and will keep working at the census extracts.
