Dear William:

I belong to a listserv which researches the Wiltshire area and after receiving your file stating Thomas was from Wiltshire, I placed a query on the list and got an answer the very next day. According to the Wiltshire Emigration Database, Thomas Whitlock of Salisbury, aged 18, Husbandman emigrated to New England, America in 1641.

How's that for instant genealogy. This would be too late for the other Thomas Whitlock in Virginia as he was admitted a Freeman in Rappahannock Co. in 1838. So I would be tempted to say, we found our Thomas

Will let you know if I get anything else.
