Peter,

Many thanks for the Whitlock50 file print out you sent to me. I'm still stepping through it but I have identified many individuals in my file not in yours and vice versa.

In particular I didn't have all the Whites and Reads ,etc from Thomas White 1799 down to Harriet Read 1790 - over two pages wow!

Equally within the first six pages of Whitlock50 I have many extra dates, places, individuals and branches - these are in the GEDCOM file I sent but I will send you a new one once I have updated with all the information here. I will add too Whitlock 03 (which I downloaded from the document list) and Whitlock51 (once that is available for download).

A few points that I need clarifying:

I note these files do not use double dates for the 1750's. A problem I know because the practice of double dating OS/NS was so variable. eg Was Dinah Seaward buried on 2nd Jan, 1749 or 1750 or 1751? I suspect it was 1749 OS / 1750 NS. Are all your records NS?

You have John Whitlock bp 5 Mar 1793 and I have his brother Stephen baptised on the same date. Neither of us has actual birthdates. Where they twins?

I have Frank Henry Whitlock 1850 -M- Emily Douglas 1860 dau. Nora. You have this Frank -M1- to Maria Douglas with son William Frank Whitlock 1875 and dau. Nora. You don't give his M2. Could it be it should be as follows:
Frank Henry Whitlock 1850 -M1- Maria Douglas
son. William Frank Whitlock 1875
-M2- Emily Douglas 1860
dau. Nora Whitlock.

As so often happened did the widow(er) marry the sibling? Maybe someone out there knows the answer?

A similar problem With Edwin Whitlock 1825 who you have married twice

X3138/2

M1 to Emily Augusta Kelly and

M2 to Julia Mary Jane Kelly - sisters again?

Your have Emily Alicia Louisa Whitlock 1850? dau of M1 -

I have her as 1860? as a Targett first dau. of Julia Kelly by her first marriage. ie adopted as a Whitlock upon her mother's second marriage. Or does someone know better?

I note in the Read branch, which I did not previously have, that David James Read 1868, Mary Ann Parham Read 1870 and Clara Arabella Read 1872 were all born after their mother Mary ?? (1822-1857) had died!!! They are probably the offspring of David Read 1823 -1892 second marriage to Sarah ?? 1832 - 1910.

Finally may I ask from what programme does everyone generate their text tree files - they all seem to have the K1, L1, L2, etc format for generations. I use Family Tree Maker which doesn't!
