Hi Hanksy (cc Peter Whitlock),

Thanks for your e-mail (copy below), I think the quick answer is I don't know, but I think they are not related.

As you may have seen on my Whitlock web page at <http://www.vino.demon.co.uk/set/whitlock.html> I have George Whitlock's birth certificate born 17 Jun 1860 and his parents are Henry Whitlock a Sawyer and Mary Ann Legg. Arthur James Whitlock (who recently celebrated his 108th birthday) told me that he thought George's siblings possibly include William, Sylvie, Henrietta, and Mary.

With a lot of generous help from Peter Whitlock of the Whitlock Association - see their web site at <http://home.pix.za/dw/dw000002/whitass/index.htm> I had a quick look to find the marriage of Henry Whitlock and Mary Ann Legg, but so far unsuccessfully. We also can't find George or his parents in the 1881 census - and we tried Whitelock as well. There is a possible match for Henry in the 1891 census, in which case he was born in Paddington.

I don't know any example of the particular Whitlock family I'm interested in being Whitelock - but it's a possibility - do any of your Whitelocks appear as Whitlocks? I've copied this to Peter Whitlock, just in case he can help - although I'm not sure to what extent the Whitlock Association also cover Whitelock.

Good luck in your research,

Cheers, Stephen

My family history: www.vino.demon.co.uk/set/

an ancestor Charles Frederick William WHITELOCK (born 1862,12 William = St, Poplar, Middlesex, UK) had a brother George. Their father was = Charles William WHITELOCK, mother Maria HALL. Is this a relation to = your George Whitlock of Chelsea Middlesex, born 1860?

To Peter

There is actually (or was, I think he may have died) a Peter Whitelock also researching Whitelock family history in Catford!! He is part of my branch! Shall I send you my Whitelock gedcom file?

My Charles F W Whitelock (father Charles William Whitelock according to CFW's birth cert) was born 12 Mar 1862, he married in 1896 at St James Church, Southwark to Frances Marguerita Smith. All of their 12 children were born in Furze Platt, Maidenhead Berkshire and on the 1851 census, there is a Whitelock listed in Berkshire so maybe the family originally came from there! However another puzzle I have is that someone (years ago) sent my grandfather a section of a family tree listing some Whitelocks and I can't quite make the connection to my branch but I know that there definitely is one as the two branches shared the same address in the 1861 census ie on CFW Whitelock's birth cert. it says he was born in 12 William St, Poplar but on the 1861 census, this missing branch lives there!!!!!! Very interesting (for me anyway!)

The marriage that you found in East Ham 1884 maybe for Charles William Whitelock and his 2nd wife, a Mrs Bennett. CFW Whitelock's mother was Maria Hall and died "in a mental home" according to family stories!!! The 1859 marriage could be CW Whitelock's and Maria Hall's.....Could you perhaps recheck those marriages and find out the spouses' names for me?

What are you using to look up records etc? Do you have CD's of the census materials?

Another (silly?) question are about MI's....I have just learned that they are monumental inscriptions but how do people look them up? There are always lots of requests on genealogy group pages about looking up MI's for people. Maybe someone in the group lives close to the cemetery?

I shall send you an addressed envelope and some IRC's for you to post me the info re Whitlock/Whitelock.

many thanks for your help

Louisa Hanks (nee Whitelock)
