Looking for information on Frances Duffy Pitts. She was a doctor in the Indian Territory in Oklahoma. Her Daughter was born in 1850 in the Oklahoma territory. Frances Duffy was a doctor in Oklahoma territory. She was a petite woman. I am looking for the name of her first husband whose last name was Pitts.

After Mr. Pitts died Frances supposedly married a man who was governor of Arka I don't know which one. It would have been after 1850. I am looking for names of Frances' parents and the governor who she married. Fannie Pitts is her daughter. Fannie Pitts married Lindsey Murray Dearen. They lived in Little Rock Arkansas

Dora Dearen was one of their children. They went into Oklahoma with the run for land and staked out a homestead near McAlister. Dora went to school at a mission school as the only girl with Indian boys. Mr. Dearen ran away from home as a young man. He changed his name from Dearing to keep from being found. Supposedly his brother John invented a plow and created the Deering plow company. Can anyone tell me about John Deering and what his mother and father's names were.

Dora married William Whitlock in McAlister. She worked as a switchboard operator and book keeper for Bell Telephone. William went to the Oklahoma territory at the turn of the last century to lay the first pipeline for Gulf Pipeline Company. He was a surveyor and then a Machinist. Please email me if you have any info for me. William was part Cherokee according to my

Grandmother. His Grandfather was supposedly kin to John Ross. William want
to go on the rolls but his mother refused to sign the papers. she was
embarrassed to admit she had cherokee blood. thanks
