Here is what I have in my file. I must tell you that in the past I did not keep good records on where information came from. Also on dates, my program will not accept such items as circa 1876. In that case I would just enter 1876. Also if there was a range of say 1876 - 1880 I would more than likely have entered 1878.

If there was only circumstantial evidence of a fact I would enter it anyway.

I don't want you to mess up your records.

If you can confirm or refute any of my information please let me know.

If you have any specific questions about my information I will try to trace it to my source for you. Let me know.

I only work on this on weekends at my weekend getaway so don't be surprised if my email answers are few and far between. Thanks.
