I have many Whitlock ancestors and a site with about 20,000 names from my family tree. Maybe we are related.

Family Tree

Sharp - Castle - Griffith - Lyons - Oviatt
Morgan - Matson - Whittaker - Yancey

I wanted to let you know that I recently created a family genealogy website with photos, links, pedigrees and more. It's located at:

<http://www.matson.info>

and contains almost 20,000 names in over 6,200 family group sheets representing both Richard's and Terry's sides of the family. I hope to record any corrections or comments or include photos or links you may want to share.
