Peter,

I am still trying to run down Whitlock's in my family tree. I start with what is know and that is a Calvin Whitlock who was born abt May, 1877. He married a Telitha C., born abt May, 1870. They are listed in the 1900 Federal census of Rutherford County, NC. According to Calvin's death certificate his mother was Mary J. Roberson(I suspect this to be Robertson) and his Father was Billy Whitlock. Mary is shown on the 1880 Federal census of Rutherford County as head of household with two children. A daughter named Samantha, age 5 and a son named Calvin, age 2. The obit below is a descendant of Calvin's.

Any help with this family would be greatly appreciated.
