My name is Steven Whitlock. I am trying to find out more about my family name and where it comes from. My fathers name is Steve Anderson Whitlock, he was born in Green County Kentucky, USA, in 1951. My grandfathers name is Milby Anderson Whitlock, we are unsure if he was also born in Green County or not, and also do not know the year of his birth. My mother and father where divorced in 1981, and I have not spoken with him since 1994. My grandmother has been less than forthcoming with any helpful information. If you can help me out at all or even point me in the right direction it would be appreciated. Thank You.

I'm sorry. I didn't realize you were cataloging. Well, I haven't had any luck finding my grandfathers parents yet. Here is my complete family information:

Steven Matthew Whitlock=Me-9/15/1974^h

Joseph Patrick Whitlock=My younger brother-5/1/1980^h

Micah Lynn Whitlock=Younger sister-10/11/1978^h and she has a son,

Zachary Thomas Whitlock=My nephew-3/28/2000^h-he took my sisters name because his father takes no responsibility for him.

Our Parents are: Judith Lynn Christie=mother-11/13/48 and Steve Anderson Whitlock=father-1/17/51^h-They were married 3/17/1973^h. My mothers parents were George and Peggy Christie, My grandmothers maiden name was Clark. My fathers parents were Milby Anderson Whitlock and Latoka Warf. My grandmothers mother was Betty Warf, and her father died sometime before 1970.

This is really all the information I have on my fathers family. I am going to try to contact my grandmother soon to see if she will help me, but I'm guessing she won't. We'll see, and I'll let you know if we find out anymore. Thank You

Steve Whitlock
