Hello Peter,

I just discovered this and realized it had never been sent.

It appears that Clark was Esther's maiden name as she married Richard Olmstead in 1745. Richard died in 1772. (source "The Olmsted Family in America") There are no children listed which does not necessarily mean that there were none.

Esther married Daniel Whitlock in 1777 so the Ruth Scribner must have been a first marriage. An Asa Scribner md Rachel Olmstead and had a daughter Lucretia Scribner b 1778. Lucretia md Roger Olmstead who was the son of Daniel Olmstead and Joanna Olmstead (now I know why I put it aside as it is a tangle of Olmsteads) Joanna was the daughter of John Olmstead b Feb 25 1715 and Joanna_____?
