Peter,

Many thanks for you Email and the Percy Whitlock F.T.
Somehow it was sent to you on my wife's Email address.

I am having trouble understanding how one reads the charts, and what the coding before the names represent. ie J1) K1) K2) K3 etc.
probably you could enlighten me on this.

The whole of the script is down the left hand side of the page, and it appears that you have set tabs on the original documents to set them across the sheet?

I can see the two generations back from Percy as I already have this data ie:-

N2) William WHITLOCK b.1836 d. Apr.24, 1905
-M- Sarah Ann FELCE b. 1836 br. May 1908 (I presume "br" is date of burial
rather than death date?)
1872 Cosgrove, England
O1)William Thomas WHITLOCK bp. Sep.29,1874 br.May 7,1935 (bp= baptised?)
-M- Annie Jemima REEVES b.Apr.10,1873
P1)Percy William WHITLOCK b.Jun.1,1903 d.May 1,1946 (Organist & Composer)

This section above is how the whole charts appear on my screen.

I do not understand however where to find the two sisters to William (1836-1905) Mary and Clara.

Also I cannot see how to go back further generations having only the name of the previous generation Thomas WHITLOCK ca 1812.

There is a Thomas about 30 lines above William

M2) Thomas WHITLOCK b.Apr.5,1812 d.Aug.15,1896
-M- Prudence PALMER b.1809? d.Apr.30 1896
May 27,1833 Blisworth,Northamptonshire,England.

Is this the correct person ?

After that comes

N1) John WHITLOCK bp.Apr.19,1835 brDec.9,1910. Is this the first son, and William the second?

Then how do the following persons fit in:-

- O1) Ada Abigale WHITLOCK bp.1868. br.1868
- O2) Tom James WHITLOCK bp.1869. br. 1875
- O3) Ada Abigale WHITLOCK bp.1872. br.1872
- O4) William John WHITLOCK bp. 1873.

Many thanks for your help

Robert.
