Good morning Peter

Unfortunately I lost your Email address otherwise I would have contacted you before this. Finally got it from my son Alex.

Anyway, Alex sent me the attached. What are your thoughts on replying to requests such as this? Now I know that some provinces & states will release this information for medical reasons but I am not sure of the procedure.

If I were to reply to her, I would simply request more information: is this her birth or adopted name, place of birth (city & hospital), date & time of birth, & if she has explored 'official' channels, etc.

Otherwise, I am doing well. In between jobs. I have decided to wrap up the consulting business as it is getting to complicated & crowded. Am looking at a business proposition here in Ottawa – lots of potential but getting that 1st client is going to be a tough sell. Also looking at some full-time positions – although no one is currently in a hurry to hire.

I should check my branch of the family tree & get it updated.

Talk to you soon.

My birth name was Rosanna Marie Whitlock. I was put up for adoption in 1967. I have no idea what my birth parents names are, but I would like to find them, or any members of the Whitlock family that would be related to me. The reasons for this are strictly for health reasons. I am not necessarily looking for a relationship with you, but would never turn it down if given the opportunity. I have lived a great life, aside from these health conditions. I would like to find out family history in health.

If you know of me, or my family... please contact me

Thank you :)
