Dear Mr. Whitlock,

My name is Candice and I'm writing you because I recently visited your website.

I found your website to be very interesting and very informative.

I'm currently doing some research on my family and I saw something of importance to me.

However, I need your help in understanding exactly what it is.

Under your USA Census & Tax List Extracts I saw a record that had information about my great grandfather and my great great grandfather. But I found it to be a little confusing.

My great great grandfather's name is A.E. Whitlock. His information is listed under the state of MS for 1880.

What I'm confused about is whether this is a State Census or not. Because I have the 1880 Federal Census Record and he is not on it.

And also you have Tax List Extract listed on the title as well. Was this a tax record? Or was it just a local MS State Census Record? And also there are other people listed under him with the last name Morgan. Are they suppose to be included with his name and family? Because I couldn't tell, based on how it was written.

Also, may I ask where you found the information because I called the MS State Archives and they told me that they don't have the MS State Census Record for 1880. So if you could tell me, I would greatly appreciate it.

Basically I'm looking for all the information I can find on my family. However, it is a bit difficult because my family was a mixed family. So sorting out the information is very time consuming and sometimes rather difficult to understand.

In any case, if you could answer those questions for me I would really appreciate it. And by the way, I love your website!

I look forward to hearing from you.

Sincerely,
Candice
