My father told me that we are related to two Whitlock brothers that set foot on American soil at Harkers Island on the Outer Banks. They went westward from there. Migrations took some families to the Big Horn Basin in Wyoming and some went on to the Los Angeles Basin in California. We are descended from the Californians.

I show Andrew Hiram Whitlock was born in Ohio County, West Virginia on January 15, 1805. He is the son of Charles who was born on April 28, 1774 in Virginia. And his father was Charles born in Albermarle County in Virginia in 1740. Josiah Whitlock was his father and was born in 1705 in Virginia.

I haven't paid a lot of attention to my pedigree charts of late, but I get promptings now and then.

I am interested in your newsletter. Maybe my 5 siblings will be interested as well.
