Hi Dorthy,

From the book, "DAUGHDRILL: A FAMILY HISTORY", by Bobbie Jones Daughdrill, pg. 25:

Children of Asa Whitlock and Ann Daughdrill Whitlock:

1 2-1 1 Sarah Whitlock. Married a Mr. James

Sarah is the only child listed for this marriage.

Ann Daughdrill, born Oct. 28, 1804, was the daughter of James Daughdrill and Sealy Turner Daughdrill.

Hope this helps.

Rosette

Thanks, Rosette, Yes it does help! But I have six other children for that couple! Four of whom were born before Sarah. She was born in 1837--they were married in 1825 according to a family Bible. What does the 12-11 mean in front of Sarah's name? Yes I have her marrying a James.

He later married Nancy Todd, but I haven't found that date of marriage. Where can I get that Daughdrill book?

Thanks,
Dorothy

Hi Dorthy,

Do you think you descend from Asa Whitlock and ANN DAUGHDRILL?

The numbers before Sarah Daughdrill's name , 1 2-1-1 1, are simply a numbering system used in this book to identify different individuals.

If the last digit is a 1 the person is the first child born in that generation. Sarah is the only child listed for this marriage. The book has the same date of birth for Ann Daughdrill as you have.

"DAUGHDRILL: A FAMILY HISTORY" by Bobbie Jones Daughdrill is out of print. I found my copy over the internet. You can put in a search for used,rare and out-of print books, and then inquire at the booksellers that come up. I hope you find one.

Rosette, Yes I know I'm a descendant of Asa Whitlock (not positive if Ann Daughdrill was my great great grandmother or Nancy Todd, who was his second wife). Asa's name was William Asa, Sr. and he had a son--William Asa, Jr. Jr.'s daughter was Sarah Mariah, who married a Hartman. Her daughter, Rosa Ada, was my mother. I have one of those wonderful old photos that are oval and concaved of Asa, Jr. and some other members of that family. Thanks, Dorothy

I also have other children for Mary Ann Daughdrill and William Asa Whitlock, one being my grandmother, Celia Elizabeth Whitlock.

In the 1880 US Population Census, Beat 4, Tunnel Hill, Lauderdale Co., MS, ED 96, p. 48 & 49 (189D), T9-0653. En. Date: June 28 & 29, 1880 it has:

"..Whitlock, Nancy..W..F..75...mother-in-law (Of V.F. Hawkins)..W..At Home.. SC..SC..SC.." (b. ~1805)

Nancy could be a nickname for Mary Ann and therefore Mary Ann and Nancy are the same person. Could Mary Ann have married a Todd before she married William Asa Draughdrill?

Any ideas anyone?

Carol,

So excited to find you again! I lost your email address. Hope you have no objections to giving it to me again. I think I told you I'm the great grand daughter of William Asa Whitlock, Jr. and have his picture hanging above my computer in his Confederate Cavalry uniform in a big oval frame.

Your leading me to the Turners in MS & SC is really exciting because the other side of my family, the Baldwins, and the Whitlocks both end up being in the same county, Union, in SC in the same time frame.

Just got some archive paperwork from a cousin in Texas that shows the probate proceedings of our James Turner in 1834, and it has a Whitlock name, I think as a witness, will have to look again.

Would really like to exchange info and my email address is dfarnold@gbis.com. I'm in Nevada. Really interested in your Celia Elizabeth Turner!

Carol, my emails keep getting sent back as undeliverable, I'll try one more time. And I'll put the whole message here. Maybe someone else will recognize some of these names and help us?

My great grandfather was William Asa Whitlock, Jr..

I have his first wife as Harriet McCormack and only one child for them who is your MARTHA ELIZABETH WHITLOCK, born Jan 19, 1849 in LA. I'm showing that Harriet died in 1854.

Then he married my great grandmother, they had four children, one of which was my grandmother, Sarah Mariah Whitlock.

Now---to get into the Daughdrills--I have to go back to W.A., Jr's dad, W.A., Sr. who, I'm showing married Ann Daughdrill on June 2, 1825. I have her father as James Daughdrill and her mother as Ceila (Cealy) Turner.

So, W.A., Sr. & Ann Daughdrill were the parents of my W.A., Jr. and his siblings, of which there were seven.

Then, I have your Martha Elizabeth marrying James Harold Daughdrill in 1867.

Two questions: One, do I have your Martha Elizabeth listed with the wrong father? Does she belong to W.A., Sr. instead of Jr.?

Two, if Mary Ann Daughdrill was Martha's mom, how is it that she married a Daughdrill when she grew up? (Actually this is outside the issue for now)

But, if your Martha and my William Asa, Jr. are siblings, maybe I've got her birthdate wrong. I have it as Jan 19, 1849. Maybe that's where I'm going wrong?

Please, if you have time, try to straighten me out on this?

Anyway, we both know we're related--my grandmother was Sarah Mariah Whitlock and her dad was William Asa Whitlock, Jr. I have photos of both and proof that I belong to them, the rest is confusing--Ha!

Nevada

Dorothy and Carol,

We have corresponded a few years ago. I'm glad to know you're both still doing research. On the question of Ann Daughdrill and Nancy Todd. I think there's a strong possibility that Asa was married twice--that Ann died and he remarried Nancy Todd. I know that a Bible exists with his marriage to Ann and that some census reports list his wife as Nancy. Also, another Whitlock researcher says his wife was Nancy Todd, but I can't find any proof for that.

I don't know if we'll ever find an absolute answer to the question.

Hi Kay

Good to hear from you again. Asa could have been married twice but like you, I can't find any proof that he married a Nancy Todd. I believe that Nancy and Mary Ann Daughdrill are probably the one and the same although I keep looking for research that may show otherwise. I think that Nancy is a nickname for Mary Ann. Here is the census data I have on Mary Ann/Nancy followed by my reasoning why I think they are the same person:

1850 US Population, Choctaw Co., AL, p. 185 A & B, En. Date: Nov. 21 & 23, 1850. M432-3
"..Nancy..45..F..SC.." (b. ~ 1805)

1860 US Population, Beat 4, Meridian PO, Lauderdale Co., MS, p. 161, En. Date: Aug. 10, 1860. M653-583
"..Mary..56..F..Dom. Bus..SC.." (b. ~ 1804)

1870 US Population, Meridian, Beat 4, Lauderdale Co., MS, p. 21, Enumeration Date: Aug. 10, 1870 M593-735
"..Nancy..66..F..W..Keeping house..South Carolina..." (b. ~1804)

1880 US Population, Beat 4, Tunnel Hill, Lauderdale Co., MS, ED 96, p. 48 & 49 (189D), T9-0653. En. Date: June 28 & 29, 1880
"..Whitlock, Nancy..W..F..75...mother-in-law (Of V.F. Hawkins)..W..At Home.. SC..SC..SC.." (b. ~1805)

The reason I think that Nancy and Mary are the same person is because Nancy is listed on the 1850, 1870 and 1880 census but stuck in between in 1860 is Mary. If the Nancy names were all together and then the Mary name (or visa versa) I would think they were different people but because they aren't that way I do believe that they are probably the same person. Also the birth dates and place of birth fit them being the same person. Then in the 1880 census Nancy is listed as the mother-in-law of V. F. Hawkins (Celia's Whitlock's husband) so that would seem that they are the same. I guess she could have been a step-mother-in-law but with the other census information that doesn't seem to make sense, at least it doesn't seem to to me, but I am always open to new interpretations. The only other thing is that maybe Wm. Asa was married 3 times, first to a Nancy, then to a Mary and then to a Nancy again. I really don't believe that is the case either as it doesn't seem to fit with other findings.

But like you, I don't think we will ever we'll ever find an absolute answer to the question, but isn't it fun trying to figure it out. I guess that is what makes genealogy so interesting.
Do keep in touch.

Carol

Carol and Dorothy,

I found this entry on One World Tree on ancestry.com:

ID: I0197

Name: Nancy "Nans" Daughdrelle WHITLOCK

Sex: F

Birth: 1805 in South Carolina

Death: WFT Est. 1852-1900

Marriage 1 Asa WHITLOCK b: 1795 in South Carolina

This lends support to the theory that Nancy was a nickname for Ann. Unfortunately, they don't list who submitted this tree, so I can't contact them to find out their source. I once was told by a Daughdrill descendant (can't remember the name right now) that something in the early Daughdrill's religious beliefs prevented them from putting down tombstones. Makes it hard to find out where they're buried and when they died.

I liked your analysis--clarified a lot of points.

Kay,

Thanks so much for the information. The Whitlock Family Assn. (Peter Whitlock) has Ann/Nan's death date as 3/5/1883. I don't know the source of their information. Since she is on the 1880 census we can believe that she was still living in 1880. As she was 75 in 1880 it does seem reasonable to believe she died in 1883. Not being able to find tombstones surely does make it hard to find dates. It does seem that our dead relatives would have made it easier for us to research. (Ha Ha) Very inconsiderate of them.

Hi Dorothy, I have a Zadok Whitlock who was born in SC and married in Chambers County, AL in 1848. I have looked at Asa several times as he was listed as living in Macon County, AL in 1840. He wasn't listed as being married and the census showed him having three sons. Is this the same Asa and if so do you know if he had a son named Zadok?...Thanks, Chris Green
