The grapes are starting to ripen - Rachel has sent me a couple of photos. She had made them look huge but I know they are probably only about dime size or even smaller. Perhaps they will be worthwhile picking when you return from SLC.

I don't mind at all pulling census for you. There seems to be at least two Leonard Basil Whitlocks. This one appears to be born in Georgia. Here is a 1930 US Census - perhaps this is the right guy - let me know if it is not and I'll look again:

1930 US Census Trimble, Cullman, Alabama

Lenard B Whitlock 30 GA GA GA

Bestta E Whitlock 30 AL AG AL

L B Whitlock 3 11/12 AL GA AL

Waymon D Whitlock 2 9/12 AL GA AL

WLE49/?
