This genealogy database was created in 2000 and has proved ever popular as a free resource over the years. Early in 2001 we created an automated version of the original data at that time, making

a new database of around 40000 people. Access to this database was available for only £15 for a one off payment for a lifetime subscription.

The current database now has over 150000 people, has a free trial and still has a one off payment for life time access and only a few pounds more, after all this time.

To see what we are talking about click on the link below and sign up for your free trial with no obligation. We don't take any payment information from you. We send you a Paypal invoice which you can choose to pay or let your free trial lapse. You have nothing to lose but have plenty to gain.

Major enhancements made November 2009 @ v.7.1.2 Including a PDF Generator A Fantastic Utility to create a multitude of custom reports to aid in your research. Many more Google Maps, images & biographies added.
