 from that quarter work for 15  
 years and had built farms on  
 December, 1914 I bought a farm.  
 This is now all the year started  
 by the time I had been studying plant  
 breeding, where I tried to tell you  
 where I went from. I think that

 many years, the singing was  
 belongs to the Manitoba although my  
 Mother was a lovely contralto, I am  
 getting a little better of poor get to like  
 you from 40 years ago and now  
 this time years more than any other person  
 in Manitoba. Here is the for showing

Hyman is Laboratory Technician

Heather is taking a year leave from  
at the U in Birmingham she also is

where the Whitlacks I see I hope  
'you're Kelly, want get encouraged  
my great grand father was  
English also his father they had  
gone to Ireland for their honeymoon  
they liked Ireland so much they  
never went back to England so  
they raised a family of Irish, my  
grand father was one of them  
else he married an Irish girl and  
before they had any family she had  
was a great nurse and he got to know  
that nurses in Ireland get higher  
pay so she and his Irish wife  
moved to Scotland and raised a

Scottish family - the Langhorns  
and these sons are also my  
father who was my Scotch he  
married Margaret Murray which  
was the first with more Scotch, day by  
the way you never told what  
your father was English what is  
fact, the Whitlacks were very  
blend, they have eyes a light color  
hair, had good looking women  
in the pregnancy again.  
you are not the only daddy who  
has written to me, I'm I must tell  
you about a day from Glasgow,  
William she had seen my picture  
in the paper, she's 4 pages later  
claiming her husband's name was  
William and she said of her husband  
- she had been in Ireland, this is where she  
fell down because I don't look like that  
I think she still has eyes & my hair  
at my age in 1911 for Scotch, my grand  
don't pay any attention to that letter, over

part of our belief that duty has a  
substantial share in just behavior  
concerning man, it is a small world,  
where man is willing to do any  
deed you are honest to govern  
honestly, I have found as many  
examples in public affairs I have had  
above all the precedent of agriculture  
activity & what have you, any aspect  
in connection with the government  
day, I never found any real work,  
and another about the Americans,  
I am sure on the national level of the  
Kantorian and German level we talk  
our usual meetings in a depressed manner each  
year, this too in the same position, conditions  
at Great Britain, Italy, we were  
eating Capote's style, they help & get in  
line, I looked down the line from a young  
man with a light suit, I said to my wife  
that man looks so much like my brother  
George of which I know. He was dead &  
would say that I was born

My wife & I got over breakfast  
we started to look for a table & saw  
two people at a small table,  
I introduced myself as Hitchcock  
from Montreal, Mantel also said  
they would never know where that  
place was. Then he said would you  
-any one called Thomas Street, well  
you are with Estlin in the initial  
Cherokee, there do you still give  
names, Hitchcock, tell them in  
another man here at that name,  
light dinner tonight you could  
take me to meet, this man, Steve &  
well. The man I met was the one  
that looked so much like my brother  
The trouble was that young man  
was English & I was with the  
certain figures are relationships  
because he did know his name  
father as he was dead before he was born  
but of which his grand father was my  
uncle, for wife said an English family
